Art Unit: 1714

Applicant's understanding was correct that the Office Action mailed on May 4, 2004 was non-final.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.
- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Claims 1-8 and 10-21 are rejected under 35 U.S.C. 102(a) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over WO 00/48957.

Rejection is maintained for the reason of record.

Applicant agrees that WO teaches saturated lubricants as the exemplary lubricants, but asserts that the disclosure is not so limited and it is clear that sizing compositions disclosed in WO does include an operative amount of one or more cationic lubricants. Examples 1-3 of WO show employing 0.01, 0.08 and 0.24 wt.% of such lubricants, however, the instantly recited "consisting essentially of" alone does not overcome the rejection and applicant failed to show that the presence of an operative

Art Unit: 1714

amount of one or more cationic <u>saturated</u> lubricants is detrimental to the instant invention.

Claims 14 and 15 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Arpin et al (US 5,242,969).

Rejection is maintained for the reason of record.

Again, a fiber coated with the sizing composition of claim 1 no longer contains any solvent and thus the recited concentration (35-70% by weight) has little probative value for the dried coating. Also, the amount of coated grafted polyolefin on the fiber is not recited in the instant claim and thus any amount of coated grafted polyolefin (see col. 7, lines 47-51 wherein the amount is recited) would meet the invention. For example, a fiber having a finished coating weight of 0.1-5wt.% from the instant 35 wt.% concentration would have 0.00035-0.175 wt.% of net coating based the total weight of a fiber and coating, and a fiber of WO having a finished coating weight of 5 wt.% from 2 wt.% concentration would have 0.001 wt.% of net coating.

Claims 9 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 1714

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tae H Yoon whose telephone number is (571) 272-1128. The examiner can normally be reached on Mon-Thu.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on (571) 272-1119. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
